SUMMARY

Detail-oriented **Data Analyst** with Strong in **SQL, Excel, Power BI, and Python**, specializing in data cleaning, exploratory data analysis, and dashboard development. Proven ability to analyze complex datasets, track KPIs, and deliver actionable insights through interactive visualizations. Strong understanding of business requirements with a focus on data-driven decision-making and stakeholder reporting.

SKILLS

Programming: Python (Pandas)

Databases: SQL, MySQL (Joins, Subqueries, Aggregations, Indexing)

Analytics Tools: Excel (Pivot Tables, LOOKUPS), Power BI (DAX, Data Modeling, Dashboards)

Data Analysis: Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Trend Analysis

Business Intelligence: KPI Tracking, Dashboard Development, Ad-hoc Analysis, Insight Generation

Core Competencies: ETL, Data Visualization, Reporting, Business Analysis

Other: Git, GitHub, Power Query, Jupyter Notebook, VS Code

EXPERIENCE

Accenture – Full Time — 6 Months

Navi Mumbai

Trust and Safety Associate

- Analyzed large datasets to identify trends and detect anomalies..
- Analyzed user activity patterns and flagged suspicious or policy-violating behavior.
- Maintained high accuracy while handling large-scale data review tasks under tight deadlines.

PROJECTS

E-Commerce Revenue Intelligence & Sales Performance Analytics [\[Link\]](#)

March 2025

(Skills: SQL, Excel, Power BI, Data Analysis, Reporting)

- Achieved **90% data accuracy** using **Power Query** and automated reports and KPI calculations, reducing **manual reporting effort by 45%** and improving data reliability.
- Built Power BI dashboards and analyzed product mix, category contribution, and seasonal trends to identify **reasons behind revenue decline**, supporting data-driven decisions on promotions, product prioritization, and category strategy.

Retail Sales Trend & Profit Analysis [\[Link\]](#)

December 2025

(Skills: Python, Power BI, Excel, MySQL)

- Analyzed 5,905 Walmart sales transactions using **Python(Pandas, Numpy)** and **SQL** to assess payment behavior, category performance, and revenue trends across 4 Region.
- Identified that consumers drive most sales (48%) and sales rise 40% in Q4, helping improve inventory planning and sales strategy.

EDUCATION

Bachelor of Engineering in Information Technology

July 2021 – June 2025

Theem College of Engineering [CGPA: 7.25]

Higher Secondary Education (Class XII)

June 2020 – May 2021

Thakur Vidya Mandir High School & Jr.College [Percentage: 91%]

Secondary Education (Class X)

June 2018 – May 2019

Thakur Vidya Mandir High School & Jr.College [Percentage: 77%]
